

Icy images

Following the TV series *Shackleton*, Alamy Images has launched a library of original photos of Sir Ernest Shackleton's 1914-1916 ill-fated voyage to the Antarctic. The team's photographer took 400 photos, but only 120 survived. The photos tell the story of the 27-man crew of the *Endurance*, which became trapped in the ice. The images are sold on a licensed basis.
