## Photos and Images for Education

Written by Sarah

Monday, 22 September 2008 16:47

**Alamy** photos and Images Alamy offers suitable images to use in educational resources at very low prices, avoiding any copyright issues as all their images are copyright safe. Find images, pictures and photos to use in your powerpoint or interactive whiteboard presentations, or to use on worksheets and classroom handouts; without the worry of copyright issues. Pay as little as 60p per image and make your own presentations legally!

The site offers a huge range of images in it's [limited use scheme](#) to education professionals, teachers and lecturers, all of high quality. Sizes go from thumbnail images up to A6 printouts and prices go up according to the image size.
